- **FLYX - Flight Price Prediction**
FLYX is an advanced flight price prediction tool powered by the Random Forest algorithm. Designed to assist travelers in making informed booking decisions, FLYX predicts future flight prices based on a variety of parameters. Whether you're planning a vacation or a business trip, FLYX offers valuable insights to help you secure the best fares. This project involved web scraping data from Expedia, employing machine learning techniques, and integrating with a user-friendly front end using Flask.
